

FORTINET®

Unified Threat Management
Security Appliances for the
Enterprise, SMB & SOHO

Top Reasons Fortinet Is Your Security Solution

1. **Most comprehensive multi-threat protection**

High performance firewall, antivirus, antispam, web content filtering, IPS, WAN optimization & application control

2. **Easy to deploy & manage appliances**

Enterprise-class protection without the need for IT or security expertise – creating cost savings for your business

3. **Automated real-time threat detection**

Global security research team ensures that you are always up-to-date on the latest threats

4. **Simple licensing saves money**

Per-device licensing eliminates purchasing additional licenses as network or technology needs change

5. **Customized security**

Fortinet makes it easy for you to deploy exactly the right mix of security technologies to fit your environment

6. **Superior performance**

Unique FortiASIC™ processor delivers more security at faster speeds without slowing down your network or applications

7. **Proven security**

Fortinet is the only company to have seven ICSA technology certifications integrated into one solution

8. **Trusted leader**

To date, Fortinet has shipped more than 500,000 appliances to more than 75,000 customers worldwide while defining the UTM space & being a market leader for the last 12 quarters

FORTINET®

7	McAfee	5.5
8	Crossbeam	2.6
9	Other	41.4
	Total	100.0

Fortinet is the only network security vendor to have such a large breadth and depth of product certifications and company awards. Since 2000, Fortinet has received more than 100 product and company awards. IDC ranks Fortinet #1 in Worldwide UTM (Unified Threat Management) and a leader in the enterprise UTM category, Frost & Sullivan gave Fortinet the "Global Competitive Strategy Leadership of the Year" best practices award, and the FortiWifi-60B was recognized by SC Magazine with the 2008 Readers' Trust Award for "Best Integrated Security Solution".

Fortinet (NASDAQ: FTNT) is a worldwide provider of network security appliances and the market leader in unified threat management (UTM). Fortinet's products and subscription services provide broad, integrated and high-performance protection against dynamic security threats while simplifying the IT security infrastructure. Fortinet's customers include enterprises, service providers and government entities worldwide, including the majority of the 2009 Fortune Global 100. Fortinet's flagship FortiGate product delivers ASIC-accelerated performance and integrates multiple layers of security designed to help protect against application and network threats. Fortinet's broad product line goes beyond UTM to help secure the extended enterprise - from endpoints, to the perimeter and the core, including databases and applications. Fortinet is headquartered in Sunnyvale, California with offices around the world.
